EDUCATION

Pamantasan ng Lungsod ng Pasig

Bachelor of Science in Information Technology

Pasig City

September 2023 - June 2026

Coursework: Data Structures & Algorithms, Object-Oriented Programming, Integrative Programming, Database Systems, Discrete Mathematics, Security & Assurance, Software Engineering, System Integration and Architecture

Awards:

- Dean's List Academic Achievement Awardee

Jose Rizal University

Bachelor of Science in Information Technology

Mandaluyong City

August 2022 - May 2023

EXPERIENCE

Full-Stack Web Development Intern, Comfac Corporation – Mandaluyong City

February - May 2026

Laravel, Next.js, TypeScript, Zod,

- Engineered 15+ RESTful API endpoints covering the full loan lifecycle from submission, approval, disbursement, and payment schedule generation.
- Normalized a multi-stage loan workflow database schema, eliminating redundant data relationships and enforcing referential integrity across related tables.

Software Developer, Freelance Contract (Remote)

January 2026

React, TypeScript, TanStack (Query, Router, Form), Zod

- Resolved backend API integration issues while building the frontend for a lending system, implementing end-to-end form validation.

PROJECTS

JenVentory

github.com/jenventory

Spring Boot, React, TypeScript, TanStack (Query, Form, Router), Zod, PostgreSQL

- Replaced a manual pen-and-paper tracking system by building a full-stack POS, inventory, and per-customer debt management system.
- Designed RESTful APIs for inventory, product management, and customer debt tracking with JWT authentication.

Routemate

github.com/routemate

Spring Boot, React Native, TypeScript, PostgreSQL

- Building a mobile platform for outdoor adventure discovery, route creation, and social activity sharing.
- Applied clean architecture patterns using standardized API responses, structured entity mappings, and stateless token-based authentication.

Pamantasan ng Lungsod ng Pasig Document Management System

github.com/qmsopticore

Laravel, React, TypeScript Inertia.js, Python, Typescript, Flask

- Built and deployed a document management system automating document routing, multi-stage approvals, and version control.
- Integrated a Flask-based CNN service for automated signature verification within approval workflows.

SKILLS

Languages: JavaScript, TypeScript, Java, PHP, Python

Databases: MySQL, PostgreSQL

Frameworks: Laravel, Spring Boot, CodeIgniter, Express, FastAPI, Tailwind CSS, Bootstrap

Libraries: React, Zod, Lombok, TanStack, Axios, Inertia.js, Sanctum

Developer Tools & Platforms: Git, GitHub, Docker, Figma
